Tuts+ Network

At Envato we're very passionate about education; that's why we've created one of the most popular networks of educational blogs around. Our Tuts+ tutorial sites are free and serve up over 20 million pageviews a month! These sites cover subjects like graphic design, web development, audio production and motion graphics. A subscription to the Plus Program gives users exclusive access to bonus tutorials and extra materials, such as sample files and downloads.

Community Outreach

Did you participate in Blog Action Day on 15 October 2008? Blog Action Day is a not-for-profit activity initiated by the staff of Envato and a group of volunteer bloggers who donated their time and resources. It started as a “what if” question and simply took a life of its own.

Blog Action Day is about elevating the conversation of the world, for one day, to an issue of global importance. It's when bloggers, podcasters and videocasters around the world collectively post, on the same issue at the same time, to trigger a global discussion and bring together the diverse opinions and ideas of thousands of different people. Blog Action Day 2009 is being organised by Change.org with input from Envato.

Envato also continues to support a number of other global charities and institutions who believe in and act for the betterment of the world.
